Office policy: Blue Cross Blue Shield & United insurance

We charge the time-of-service fee to you and submit the claim to insurance after you have confirmed your coverage.

**The rate is \$195 for your initial consultation and your first treatment combined.** This will be a 75 minute appointment.

**If there is payment from your insurance, we will reimburse you for the amount determined by the insurance company.** If they deny payment you will owe no additional fees.

I will provide you with a form that will assist you in checking your coverage.

Based on the information you obtain when you call, I can estimate what your cost and reimbursement should be after the claims are processed.
